

IN THE SPECIFICATION:

Applicants have elected to file a substitute specification in accordance with MPEP 608.01(q) and 37 CFR 1.125. Applicants have attached a clean copy of the substitute specification as Exhibit A and a marked version showing changes with respect to the filed version as Exhibit B.

The substitute and marked versions attached include claims as originally filed and constitute original subject matter. The claims for examination are the claims presented in this Amendment A and Response.

The substitute and marked versions do not include figures. Figure 1 is revised (as set forth on page 10 of this Amendment A and Response) and included herein as Exhibit C; the remaining figures are unchanged.
